INFORMATION TECHNOLOGY SCHEDULE PRICELIST  
GENERAL PURPOSE COMMERCIAL INFORMATION TECHNOLOGY  
EQUIPMENT, SOFTWARE AND SERVICES**

**SIN 132-51 - INFORMATION TECHNOLOGY (IT) PROFESSIONAL SERVICES**

FPDS Code D301	IT Facility Operation and Maintenance
FPDS Code D302	IT Systems Development Services
FPDS Code D306	IT Systems Analysis Services
FPDS Code D310	IT Backup and Security Services
FPDS Code D399	Other Information Technology Services, Not Elsewhere Classified

**Note 1:** All non-professional labor categories must be incidental to and used solely to support hardware, software and/or professional services, and cannot be purchased separately.

**Note 2:** Offerors and Agencies are advised that the Group 70 – Information Technology Schedule is not to be used as a means to procure services which properly fall under the Brooks Act. These services include, but are not limited to, architectural, engineering, mapping, cartographic production, remote sensing, geographic information systems, and related services. FAR 36.6 distinguishes between mapping services of an A/E nature and mapping services which are not connected nor incidental to the traditionally accepted A/E Services.

**Note 3:** This solicitation is not intended to solicit for the reselling of IT Professional Services, except for the provision of implementation, maintenance, integration, or training services in direct support of a product. Under such circumstances the services must be performance by the publisher or manufacturer or one of their authorized agents.

**INFORMATION FOR ORDERING ACTIVITIES  
APPLICABLE TO ALL SPECIAL ITEM NUMBERS**

**SPECIAL NOTICE TO AGENCIES: Small Business Participation**

SBA strongly supports the participation of small business concerns in the Federal Supply Schedules Program. To enhance Small Business Participation SBA policy allows agencies to include in their procurement base and goals, the dollar value of orders expected to be placed against the Federal Supply Schedules, and to report accomplishments against these goals.

For orders exceeding the micropurchase threshold, FAR 8.404 requires agencies to consider the catalogs/pricelists of at least three schedule contractors or consider reasonably available information by using the GSA Advantage!<sup>™</sup> on-line shopping service ([www.fss.gsa.gov](http://www.fss.gsa.gov)). The catalogs/pricelists, GSA Advantage!<sup>™</sup> and the Federal Supply Service Home Page ([www.fss.gsa.gov](http://www.fss.gsa.gov)) contain information on a broad array of products and services offered by small business concerns.

This information should be used as a tool to assist ordering activities in meeting or exceeding established small business goals. It should also be used as a tool to assist in including small, small disadvantaged, and women-owned small businesses among those considered when selecting pricelists for a best value determination.

For orders exceeding the micropurchase threshold, customers are to give preference to small business concerns when two or more items at the same delivered price will satisfy their requirement.

**1. GEOGRAPHIC SCOPE OF CONTRACT:**

*Domestic delivery* is delivery within the 48 contiguous states, Alaska, Hawaii, Puerto Rico, Washington, DC, and U.S. Territories. Domestic delivery also includes a port or consolidation point, within the aforementioned areas, for orders received from overseas activities.

*Overseas delivery* is delivery to points outside of the 48 contiguous states, Washington, DC, Alaska, Hawaii, Puerto Rico, and U.S. Territories.

Offerors are requested to check one of the following boxes:

- The Geographic Scope of Contract will be domestic and overseas delivery.
- The Geographic Scope of Contract will be overseas delivery only.
- The Geographic Scope of Contract will be domestic delivery only.

**2. CONTRACTOR'S ORDERING ADDRESS AND PAYMENT INFORMATION:**

**COACT, Inc.**  
**9140 Guilford Road, Suite N**  
**Columbia, MD 21046**

Contractors are required to accept credit cards for payments equal to or less than the micro-purchase threshold for oral or written delivery orders. Credit cards **will** be acceptable for payment above the micro-purchase threshold. In addition, bank account information for wire transfer payments will be shown on the invoice.

The following telephone number(s) can be used by ordering activities to obtain technical and/or ordering assistance:

**Phone: (301) 498-0150**

**3. LIABILITY FOR INJURY OR DAMAGE**

The Contractor shall not be liable for any injury to ordering activity personnel or damage to ordering activity property arising from the use of equipment maintained by the Contractor, unless such injury or damage is due to the fault or negligence of the Contractor.

**4. STATICAL DATA FOR GOVERNMENT ORDERING OFFICE COMPLETION OF STANDARD FORM 279:**

Block 9: G. Order/Modification Under Federal Schedule  
Block 16: Data Universal Numbering System (DUNS) Number: **61-271-9344**  
Block 30: Type of Contractor - **Other Small Business**  
Block 31: Woman-Owned Small Business - **NO**  
Block 36: Contractor's Taxpayer Identification Number (TIN): **52-1670364**

- 4a. CAGE Code: **1DNJ0**
- 4b. Contractor **has** registered with the Central Contractor Registration Database.

**5. FOB DESTINATION**

**6. DELIVERY SCHEDULE**

- a. TIME OF DELIVERY: The Contractor shall deliver to destination within the number of calendar days after receipt of order (ARO), as set forth below:

SPECIAL ITEM NUMBER	DELIVERY TIME (Days ARO)
<b>132-51</b>	*

**\*To be negotiated between Contractor and Ordering Activity**

- b. URGENT REQUIREMENTS: When the Federal Supply Schedule contract delivery period does not meet the bona fide urgent delivery requirements of an ordering activity, ordering activities are encouraged, if time permits, to contact the Contractor for the purpose of obtaining accelerated delivery. The Contractor shall reply to the inquiry within 3 workdays after receipt. (Telephonic replies shall be confirmed by the Contractor in writing.) If the Contractor offers an accelerated delivery time acceptable to the ordering activity, any order(s) placed pursuant to the agreed upon accelerated delivery time frame shall be delivered within this shorter delivery time and in accordance with all other terms and conditions of the contract.

**7. DISCOUNTS:** Prices shown are NET Prices; Basic Discounts have been deducted.

- a. Prompt Payment: **0%, Net 30 days**
- b. Quantity: **NONE**
- c. Dollar Volume: **2% additional discount on single orders at or above \$500,000**
- d. Government Educational Institutions: **Government Educational Institutions are offered the same discounts as all other Government customers**
- e. Other: **NONE**

**8. TRADE AGREEMENTS ACT OF 1979, as amended:**

All items are U.S. made end products, designated country end products, Caribbean Basin country end products, Canadian end products, or Mexican end products as defined in the Trade Agreements Act of 1979, as amended.

**9. STATEMENT CONCERNING AVAILABILITY OF EXPORT PACKING:**

**10. Small Requirements:** The minimum dollar value of orders to be issued is **\$100.**

**11. MAXIMUM ORDER (All dollar amounts are exclusive of any discount for prompt payment.)**

The Maximum Order value for the following Special Item Numbers (SINs) is \$500,000:

Special Item Number 132-51 - Information Technology (IT) Professional Services

**12. ORDERING PROCEDURES FOR FEDERAL SUPPLY SCHEDULE CONTRACTS**

Ordering activities shall use the ordering procedures of Federal Acquisition Regulation (FAR) 8.405 when placing an order or establishing a BPA for supplies or services. These procedures apply to all schedules.

a. FAR 8.405-1 Ordering procedures for supplies, and services not requiring a statement of work.

b. FAR 8.405-2 Ordering procedures for services requiring a statement of work.

**13. FEDERAL INFORMATION TECHNOLOGY/TELECOMMUNICATION STANDARDS**

**REQUIREMENTS:** ordering activities acquiring products from this Schedule must comply with the provisions of the Federal Standards Program, as appropriate (reference: NIST Federal Standards Index). Inquiries to determine whether or not specific products listed herein comply with Federal Information Processing Standards (FIPS) or Federal Telecommunication Standards (FED-STDS), which are cited by ordering activities, shall be responded to promptly by the Contractor.

**13.1 FEDERAL INFORMATION PROCESSING STANDARDS PUBLICATIONS (FIPS PUBS):**

Information Technology products under this Schedule that do not conform to Federal Information Processing Standards (FIPS) should not be acquired unless a waiver has been granted in accordance with the applicable "FIPS Publication." Federal Information Processing Standards Publications (FIPS PUBS) are issued by the U.S. Department of Commerce, National Institute of Standards and Technology (NIST), pursuant to National Security Act. Information concerning their availability and applicability should be obtained from the National Technical Information Service (NTIS), 5285 Port Royal Road, Springfield, Virginia 22161. FIPS PUBS include voluntary standards when these are adopted for Federal use. Individual orders for FIPS PUBS should be referred to the NTIS Sales Office, and orders for subscription service should be referred to the NTIS Subscription Officer, both at the above address, or telephone number (703) 487-4650.

**13.2 FEDERAL TELECOMMUNICATION STANDARDS (FED-STDS):** Telecommunication products

under this Schedule that do not conform to Federal Telecommunication Standards (FED-STDS) should not be acquired unless a waiver has been granted in accordance with the applicable "FED-STD." Federal Telecommunication Standards are issued by the U.S. Department of Commerce, National Institute of Standards and Technology (NIST), pursuant to National Security Act. Ordering information and information concerning the availability of FED-STDS should be obtained from the GSA, Federal Supply Service, Specification Section, 470 East L'Enfant Plaza, Suite 8100, SW, Washington, DC 20407, telephone number (202)619-8925. Please include a self-addressed mailing label when requesting information by mail. Information concerning their applicability can be obtained by writing or calling the U.S. Department of Commerce, National Institute of Standards and Technology, Gaithersburg, MD 20899, telephone number (301)975-2833.

#### **14. CONTRACTOR TASKS / SPECIAL REQUIREMENTS (C-FSS-370) (NOV 2001)**

- (a) Security Clearances: The Contractor may be required to obtain/possess varying levels of security clearances in the performance of orders issued under this contract. All costs associated with obtaining/possessing such security clearances should be factored into the price offered under the Multiple Award Schedule.
- (b) Travel: The Contractor may be required to travel in performance of orders issued under this contract. Allowable travel and per diem charges are governed by Pub .L. 99-234 and FAR Part 31, and are reimbursable by the ordering agency or can be priced as a fixed price item on orders placed under the Multiple Award Schedule. The Industrial Funding Fee does NOT apply to travel and per diem charges.

NOTE: Refer to FAR Part 31.205-46 Travel Costs, for allowable costs that pertain to official company business travel in regards to this contract.

- (c) Certifications, Licenses and Accreditations: As a commercial practice, the Contractor may be required to obtain/possess any variety of certifications, licenses and accreditations for specific FSC/service code classifications offered. All costs associated with obtaining/ possessing such certifications, licenses and accreditations should be factored into the price offered under the Multiple Award Schedule program.
- (d) Insurance: As a commercial practice, the Contractor may be required to obtain/possess insurance coverage for specific FSC/service code classifications offered. All costs associated with obtaining/possessing such insurance should be factored into the price offered under the Multiple Award Schedule program.
- (e) Personnel: The Contractor may be required to provide key personnel, resumes or skill category descriptions in the performance of orders issued under this contract. Ordering activities may require agency approval of additions or replacements to key personnel.
- (f) Organizational Conflicts of Interest: Where there may be an organizational conflict of interest as determined by the ordering agency, the Contractor's participation in such order may be restricted in accordance with FAR Part 9.5.
- (g) Documentation/Standards: The Contractor may be requested to provide products or services in accordance with rules, regulations, OMB orders, standards and documentation as specified by the agency's order.
- (h) Data/Deliverable Requirements: Any required data/deliverables at the ordering level will be as specified or negotiated in the agency's order.
- (i) Government-Furnished Property: As specified by the agency's order, the Government may provide property, equipment, materials or resources as necessary.
- (j) Availability of Funds: Many Government agencies' operating funds are appropriated for a specific fiscal year. Funds may not be presently available for any orders placed under the contract or any option year. The Government's obligation on orders placed under this contract is contingent upon the availability of appropriated funds from which payment for ordering purposes can be made. No legal liability on the part of the Government for any payment may arise until funds are available to the ordering Contracting Officer.

- 15. CONTRACT ADMINISTRATION FOR ORDERING ACTIVITIES:** Any ordering activity, with respect to any one or more delivery orders placed by it under this contract, may exercise the same rights of termination as might the GSA Contracting Officer under provisions of FAR 52.212-4, paragraphs (l) Termination for the ordering activity's convenience, and (m) Termination for Cause (See C.1.)

**16. GSA ADVANTAGE!**

GSA Advantage! is an on-line, interactive electronic information and ordering system that provides on-line access to vendors' schedule prices with ordering information. GSA Advantage! will allow the user to perform various searches across all contracts including, but not limited to:

- (1) Manufacturer;
- (2) Manufacturer's Part Number; and
- (3) Product categories.

Agencies can browse GSA Advantage! by accessing the Internet World Wide Web utilizing a browser (ex.: NetScape). The Internet address is <http://www.fss.gsa.gov/>.

**17. PURCHASE OF OPEN MARKET ITEMS**

NOTE: Open Market Items are also known as incidental items, noncontract items, non-Schedule items, and items not on a Federal Supply Schedule contract. ODCs (Other Direct Costs) are not part of this contract and should be treated as open market purchases. Ordering Activities procuring open market items must follow FAR 8.402(f).

For administrative convenience, an ordering activity contracting officer may add items not on the Federal Supply Multiple Award Schedule (MAS) -- referred to as open market items -- to a Federal Supply Schedule blanket purchase agreement (BPA) or an individual task or delivery order, **only if-**

- (1) All applicable acquisition regulations pertaining to the purchase of the items not on the Federal Supply Schedule have been followed (e.g., publicizing (Part 5), competition requirements (Part 6), acquisition of commercial items (Part 12), contracting methods (Parts 13, 14, and 15), and small business programs (Part 19));
- (2) The ordering activity contracting officer has determined the price for the items not on the Federal Supply Schedule is fair and reasonable;
- (3) The items are clearly labeled on the order as items not on the Federal Supply Schedule; and
- (4) All clauses applicable to items not on the Federal Supply Schedule are included in the order.

**18. CONTRACTOR COMMITMENTS, WARRANTIES AND REPRESENTATIONS**

- a. For the purpose of this contract, commitments, warranties and representations include, in addition to those agreed to for the entire schedule contract:
  - (1) Time of delivery/installation quotations for individual orders;
  - (2) Technical representations and/or warranties of products concerning performance, total system performance and/or configuration, physical, design and/or functional characteristics and capabilities of a product/equipment/ service/software package submitted in response to requirements which result in orders under this schedule contract.
  - (3) Any representations and/or warranties concerning the products made in any literature, description, drawings and/or specifications furnished by the Contractor.
- b. The above is not intended to encompass items not currently covered by the GSA Schedule contract.

**19. OVERSEAS ACTIVITIES**

The terms and conditions of this contract shall apply to all orders for installation, maintenance and repair of equipment in areas listed in the pricelist outside the 48 contiguous states and the District of Columbia, except as indicated below:

**NOT APPLICABLE**

---

Upon request of the Contractor, the ordering activity may provide the Contractor with logistics support, as available, in accordance with all applicable ordering activity regulations. Such ordering activity support will be provided on a reimbursable basis, and will only be provided to the Contractor's technical personnel whose services are exclusively required for the fulfillment of the terms and conditions of this contract.

**20. BLANKET PURCHASE AGREEMENTS (BPAs)**

The use of BPAs under any schedule contract to fill repetitive needs for supplies or services is allowable. BPAs may be established with one or more schedule contractors. The number of BPAs to be established is within the discretion of the ordering activity establishing the BPA and should be based on a strategy that is expected to maximize the effectiveness of the BPA(s). Ordering activities shall follow FAR 8.405-3 when creating and implementing BPA(s).

**21. CONTRACTOR TEAM ARRANGEMENTS**

Contractors participating in contractor team arrangements must abide by all terms and conditions of their respective contracts. This includes compliance with Clauses 552.238-74, Industrial Funding Fee and Sales Reporting, i.e., each contractor (team member) must report sales and remit the IFF for all products and services provided under its individual contract.

**22. INSTALLATION, DEINSTALLATION, REINSTALLATION**

The Davis-Bacon Act (40 U.S.C. 276a-276a-7) provides that contracts in excess of \$2,000 to which the United States or the District of Columbia is a party for construction, alteration, or repair (including painting and decorating) of public buildings or public works with the United States, shall contain a clause that no laborer or mechanic employed directly upon the site of the work shall received less than the prevailing wage rates as determined by the Secretary of Labor. The requirements of the Davis-Bacon Act do not apply if the construction work is incidental to the furnishing of supplies, equipment, or services. For example, the requirements do not apply to simple installation or alteration of a public building or public work that is incidental to furnishing supplies or equipment under a supply contract. However, if the construction, alteration or repair is segregable and exceeds \$2,000, then the requirements of the Davis-Bacon Act applies.

The ordering activity issuing the task order against this contract will be responsible for proper administration and enforcement of the Federal labor standards covered by the Davis-Bacon Act. The proper Davis-Bacon wage determination will be issued by the ordering activity at the time a request for quotations is made for applicable construction classified installation, deinstallation, and reinstallation services under SIN 132-8.

**23. SECTION 508 COMPLIANCE.**

If applicable, Section 508 compliance information on the supplies and services in this contract are available in Electronic and Information Technology (EIT) at the following:

[www.coact.com](http://www.coact.com)

The EIT standard can be found at: [www.Section508.gov/](http://www.Section508.gov/).

**24. PRIME CONTRACTOR ORDERING FROM FEDERAL SUPPLY SCHEDULES.**

Prime Contractors (on cost reimbursement contracts) placing orders under Federal Supply Schedules, on behalf of an ordering activity, shall follow the terms of the applicable schedule and authorization and include with each order –

- (a) A copy of the authorization from the ordering activity with whom the contractor has the prime contract (unless a copy was previously furnished to the Federal Supply Schedule contractor); and
- (b) The following statement:

This order is placed under written authorization from \_\_\_\_\_ dated \_\_\_\_\_. In the event of any inconsistency between the terms and conditions of this order and those of your Federal Supply Schedule contract, the latter will govern.

**25. INSURANCE—WORK ON A GOVERNMENT INSTALLATION (JAN 1997)(FAR 52.228-5)**

- (a) The Contractor shall, at its own expense, provide and maintain during the entire performance of this contract, at least the kinds and minimum amounts of insurance required in the Schedule or elsewhere in the contract.
- (b) Before commencing work under this contract, the Contractor shall notify the Contracting Officer in writing that the required insurance has been obtained. The policies evidencing required insurance shall contain an endorsement to the effect that any cancellation or any material change adversely affecting the Government's interest shall not be effective—
  - (1) For such period as the laws of the State in which this contract is to be performed prescribe; or
  - (2) Until 30 days after the insurer or the Contractor gives written notice to the Contracting Officer, whichever period is longer.
- (c) The Contractor shall insert the substance of this clause, including this paragraph (c), in subcontracts under this contract that require work on a Government installation and shall require subcontractors to provide and maintain the insurance required in the Schedule or elsewhere in the contract. The Contractor shall maintain a copy of all subcontractors' proofs of required insurance, and shall make copies available to the Contracting Officer upon request.

**26. SOFTWARE INTEROPERABILITY.**

Offerors are encouraged to identify within their software items any component interfaces that support open standard interoperability. An item's interface may be identified as interoperable on the basis of participation in a Government agency-sponsored program or in an independent organization program. Interfaces may be identified by reference to an interface registered in the component registry located at <http://www.core.gov>.

**27. ADVANCE PAYMENTS**

A payment under this contract to provide a service or deliver an article for the United States Government may not be more than the value of the service already provided or the article already delivered. Advance or pre-payment is not authorized or allowed under this contract. (31 U.S.C. 3324)

**TERMS AND CONDITIONS APPLICABLE TO INFORMATION TECHNOLOGY (IT)  
PROFESSIONAL SERVICES (SPECIAL ITEM NUMBER 132-51)**

**1. SCOPE**

- a. The prices, terms and conditions stated under Special Item Number 132-51 Information Technology Professional applies exclusively to IT Services within the scope of this Information Technology Schedule.
- b. The Contractor shall provide services at the Contractor's facility and/or at the ordering activity location, as agreed to by the Contractor and the ordering activity.

**2. PERFORMANCE INCENTIVES**

- a. Performance incentives may be agreed upon between the Contractor and the ordering activity on individual fixed price orders or Blanket Purchase Agreements under this contract in accordance with this clause.
- b. The ordering activity must establish a maximum performance incentive price for these services and/or total solutions on individual orders or Blanket Purchase Agreements.
- c. Incentives should be designed to relate results achieved by the contractor to specified targets. To the maximum extent practicable, ordering activities shall consider establishing incentives where performance is critical to the ordering activity's mission and incentives are likely to motivate the contractor. Incentives shall be based on objectively measurable tasks.

**3. ORDER**

- a. Agencies may use written orders, EDI orders, blanket purchase agreements, individual purchase orders, or task orders for ordering services under this contract. Blanket Purchase Agreements shall not extend beyond the end of the contract period; all services and delivery shall be made and the contract terms and conditions shall continue in effect until the completion of the order. Orders for tasks which extend beyond the fiscal year for which funds are available shall include FAR 52.232-19 (Deviation – May 2003) Availability of Funds for the Next Fiscal Year. The purchase order shall specify the availability of funds and the period for which funds are available.
- b. All task orders are subject to the terms and conditions of the contract. In the event of conflict between a task order and the contract, the contract will take precedence.

**4. PERFORMANCE OF SERVICES**

- a. The Contractor shall commence performance of services on the date agreed to by the Contractor and the ordering activity.
- b. The Contractor agrees to render services only during normal working hours, unless otherwise agreed to by the Contractor and the ordering activity.
- c. The ordering activity should include the criteria for satisfactory completion for each task in the Statement of Work or Delivery Order. Services shall be completed in a good and workmanlike manner.

- d. Any Contractor travel required in the performance of IT Services must comply with the Federal Travel Regulation or Joint Travel Regulations, as applicable, in effect on the date(s) the travel is performed. Established Federal Government per diem rates will apply to all Contractor travel. Contractors cannot use GSA city pair contracts.

**5. STOP-WORK ORDER (FAR 52.242-15) (AUG 1989)**

- (a) The Contracting Officer may, at any time, by written order to the Contractor, require the Contractor to stop all, or any part, of the work called for by this contract for a period of 90 days after the order is delivered to the Contractor, and for any further period to which the parties may agree. The order shall be specifically identified as a stop-work order issued under this clause. Upon receipt of the order, the Contractor shall immediately comply with its terms and take all reasonable steps to minimize the incurrence of costs allocable to the work covered by the order during the period of work stoppage. Within a period of 90 days after a stop-work is delivered to the Contractor, or within any extension of that period to which the parties shall have agreed, the Contracting Officer shall either-
  - (1) Cancel the stop-work order; or
  - (2) Terminate the work covered by the order as provided in the Default, or the Termination for Convenience of the Government, clause of this contract.
- (b) If a stop-work order issued under this clause is canceled or the period of the order or any extension thereof expires, the Contractor shall resume work. The Contracting Officer shall make an equitable adjustment in the delivery schedule or contract price, or both, and the contract shall be modified, in writing, accordingly, if-
  - (1) The stop-work order results in an increase in the time required for, or in the Contractor's cost properly allocable to, the performance of any part of this contract; and
  - (2) The Contractor asserts its right to the adjustment within 30 days after the end of the period of work stoppage; provided, that, if the Contracting Officer decides the facts justify the action, the Contracting Officer may receive and act upon the claim submitted at any time before final payment under this contract.
- (c) If a stop-work order is not canceled and the work covered by the order is terminated for the convenience of the Government, the Contracting Officer shall allow reasonable costs resulting from the stop-work order in arriving at the termination settlement.
- (d) If a stop-work order is not canceled and the work covered by the order is terminated for default, the Contracting Officer shall allow, by equitable adjustment or otherwise, reasonable costs resulting from the stop-work order.

**6. INSPECTION OF SERVICES**

The Inspection of Services–Fixed Price (AUG 1996) (Deviation – May 2003) clause at FAR 52.246-4 applies to firm-fixed price orders placed under this contract. The Inspection–Time-and-Materials and Labor-Hour (JAN 1986) (Deviation – May 2003) clause at FAR 52.246-6 applies to time-and-materials and labor-hour orders placed under this contract.

**7. RESPONSIBILITIES OF THE CONTRACTOR**

The Contractor shall comply with all laws, ordinances, and regulations (Federal, State, City, or otherwise) covering work of this character. If the end product of a task order is software, then FAR 52.227-14 (Deviation – May 2003) Rights in Data – General, may apply.

**8. RESPONSIBILITIES OF THE ORDERING ACTIVITY**

Subject to security regulations, the ordering activity shall permit Contractor access to all facilities necessary to perform the requisite IT Services.

**9. INDEPENDENT CONTRACTOR**

All IT Services performed by the Contractor under the terms of this contract shall be as an independent Contractor, and not as an agent or employee of the ordering activity.

**10. ORGANIZATIONAL CONFLICTS OF INTEREST**

a. Definitions.

“Contractor” means the person, firm, unincorporated association, joint venture, partnership, or corporation that is a party to this contract.

“Contractor and its affiliates” and “Contractor or its affiliates” refers to the Contractor, its chief executives, directors, officers, subsidiaries, affiliates, subcontractors at any tier, and consultants and any joint venture involving the Contractor, any entity into or with which the Contractor subsequently merges or affiliates, or any other successor or assignee of the Contractor.

An “Organizational conflict of interest” exists when the nature of the work to be performed under a proposed ordering activity contract, without some restriction on ordering activities by the Contractor and its affiliates, may either (i) result in an unfair competitive advantage to the Contractor or its affiliates or (ii) impair the Contractor’s or its affiliates’ objectivity in performing contract work.

b. To avoid an organizational or financial conflict of interest and to avoid prejudicing the best interests of the ordering activity, ordering activities may place restrictions on the Contractors, its affiliates, chief executives, directors, subsidiaries and subcontractors at any tier when placing orders against schedule contracts. Such restrictions shall be consistent with FAR 9.505 and shall be designed to avoid, neutralize, or mitigate organizational conflicts of interest that might otherwise exist in situations related to individual orders placed against the schedule contract. Examples of situations, which may require restrictions, are provided at FAR 9.508.

**11. INVOICES**

The Contractor, upon completion of the work ordered, shall submit invoices for IT services. Progress payments may be authorized by the ordering activity on individual orders if appropriate. Progress payments shall be based upon completion of defined milestones or interim products. Invoices shall be submitted monthly for recurring services performed during the preceding month.

**12. PAYMENTS**

For firm-fixed price orders the ordering activity shall pay the Contractor, upon submission of proper invoices or vouchers, the prices stipulated in this contract for service rendered and accepted. Progress payments shall be made only when authorized by the order. For time-and-materials orders, the Payments under Time-and-Materials and Labor-Hour Contracts at FAR 52.232-7 (DEC 2002), (Alternate II – Feb

2002) (Deviation – May 2003) applies to time-and-materials orders placed under this contract. For labor-hour orders, the Payment under Time-and-Materials and Labor-Hour Contracts at FAR 52.232-7 (DEC 2002), (Alternate II – Feb 2002) (Deviation – May 2003)) applies to labor-hour orders placed under this contract.

**13. RESUMES**

Resumes shall be provided to the GSA Contracting Officer or the user ordering activity upon request.

**14. INCIDENTAL SUPPORT COSTS**

Incidental support costs are available outside the scope of this contract. The costs will be negotiated separately with the ordering activity in accordance with the guidelines set forth in the FAR.

**15. APPROVAL OF SUBCONTRACTS**

The ordering activity may require that the Contractor receive, from the ordering activity's Contracting Officer, written consent before placing any subcontract for furnishing any of the work called for in a task order.

**16. DESCRIPTION OF IT SERVICES AND PRICING**

a. The Contractor shall provide a description of each type of IT Service offered under Special Item Numbes 132-51. IT Services should be presented in the same manner as the Contractor sells to its commercial and other ordering activity customers. If the Contractor is proposing hourly rates, a description of all corresponding commercial job titles (labor categories) for those individuals who will perform the service should be provided.

b. Pricing for all IT Services shall be in accordance with the Contractor's customary commercial practices; e.g., hourly rates, monthly rates, term rates, and/or fixed prices.

The following is an example of the manner in which the description of a commercial job title should be presented:

EXAMPLE: Commercial Job Title: System Engineer

Minimum/General Experience: Three (3) years of technical experience which applies to systems analysis and design techniques for complex computer systems. Requires competence in all phases of systems analysis techniques, concepts and methods; also requires knowledge of available hardware, system software, input/output devices, structure and management practices.

Functional Responsibility: Guides users in formulating requirements, advises alternative approaches, conducts feasibility studies.

Minimum Education: Bachelor's Degree in Computer Science

**COACT, INC.**

## **LABOR CATEGORY DESCRIPTIONS**

### **PROGRAM MANAGER**

Minimum/General Experience: Five years project management experience, plus three years of experience with planning, managing and executing IT projects, with demonstrated the ability to achieve desired products on schedule within budget.

Functional Responsibility: Duties include but are not limited to overall management of technical tasks, testing installation, training, maintenance, security, certifications and lab accreditations. Provides supervisory technical and administrative direction for personnel performing tasks, including review of work products for correctness, adherence to the design concept, adherence to Government regulations and Common Criteria/FIPS 140 standards.

Minimum Education: A Bachelor's degree or eight (8) years of related experience.

### **INFORMATION SECURITY TECHNICIAN I**

Minimum/General Experience: None

Functional Responsibility: A Security Technician (STI) under general supervision, analyzes user needs and current security regulations and guidelines to determine security functional requirements and assurance levels. Accomplishes functional allocation to identify tasks to be done and interrelationships. Identifies resource(s) required. A STI has the job skills to work on various types of computer equipment and systems to perform testing under the supervision of a senior. A STI participates in formal analysis and security testing of devices implementing cryptography to the FIPS 140-2 standard under the guidance of senior personnel. A STI participates in formal analysis and testing under the guidance of senior personnel to confirm compliance to the Common Criteria requirements and or FIPS 140 Standards. A STI participates in the evaluation of a Security Target and/or a Protection Profiles under the Common Criteria Scheme.

Minimum Education: Two (2) year degree in electronic/electrical engineering, Communications, Engineering, or Computer Science.

### **INFORMATION SECURITY TECHNICIAN II**

Minimum/General Experience: Two years IT work experience

Functional Responsibility: A Security Technician (STII) has the job skills to work on various computer equipment and systems by performing one or a combination of the following: installing, troubleshooting, and testing. The STII has the skill to analyze the security functionality of various IT products. A STI participates in the evaluation of a Security Target and/or a Protection Profiles under the Common Criteria Scheme. A STII participates in formal analysis and security testing of devices implementing cryptography to the FIPS 140-2 standard under the guidance of senior personnel. A STII participates in formal analysis and testing under the guidance of senior personnel to confirm compliance to the Common Criteria requirements and or FIPS 140 Standards. A STII evaluates Security Target and/or Protection Profile under the Common Criteria Scheme.

Minimum Education: Two (2) year Associate degree in electronic/electrical engineering, Communications, Engineering, Computer Science, or related field or an additional two (2) years of relevant work experience.

### **INFORMATION SECURITY TECHNICIAN III**

**Minimum/General Experience:** Three years IT work experience, which includes Common Criteria evaluation and/or FIPS 140 testing experience.

**Functional Responsibility:** A Security Technician (STII) has the job skills to work on various network types of equipment and systems by performing one or a combination of the following: installing, troubleshooting, and testing. The STII has the skill to analyze the security functionality of various IT products. A STII develops Security Targets and Protection Profiles under the Common Criteria Scheme. A STII participates in formal analysis and security testing of devices implementing cryptography to the FIPS 140-2 standard under the guidance of senior personnel. A STII participates in formal analysis and testing under the guidance of senior personnel to confirm compliance to the Common Criteria requirements and or FIPS 140 Standards. A STII evaluates Security Target and/or Protection Profile under the Common Criteria Scheme.

**Minimum Education:** A BS degree in electronic/electrical engineering, Communications, Engineering, Computer Science or related field or six (6) years subject appropriate experience may substitute for a degree.

### **SECURITY ENGINEER I**

**Minimum/General Experience:** Three (3) years experience in a related security technology discipline, security engineering hardware and/or software, and Common Criteria evaluation and/or FIPS 140 testing experience. One of the three years experience shall be in a lead technical task/project leadership position.

**Functional Responsibility:** A Security Engineer (SEI) has a knowledge and understanding of network protocols. The SEI is familiar with Common Criteria Language, and FIPS-140. A STII develops Security Targets and Protection Profiles under the Common Criteria Scheme. A STII participates in formal analysis and security testing of devices implementing cryptography to the FIPS 140-2 standard with little guidance of senior personnel. A STII participates in formal analysis and testing with little guidance of senior personnel to confirm compliance to the Common Criteria requirements and or FIPS 140 Standards. A STII evaluates Security Target and/or Protection Profile under the Common Criteria Scheme. The SEI can assist in building test networks or system prototypes, performing equipment set-up, testing, and participating in test report writing.

**Minimum Education:** A Bachelor's degree in Engineering, Computer Science, information Technology or other related field, and three (3) years experience in a related field. Six (6) years directed and subject appropriate experience may substitute for a degree.

### **SECURITY ENGINEER II**

**Minimum/General Experience:** Six (6) years experience in a related security technology discipline, security engineering hardware and/or software, and Common Criteria evaluation and/or FIPS 140 testing experience. Two of the six years experience shall be in a lead technical task/project leadership position.

**Functional Responsibility:** A Security Engineer II (SEII) shall have experience in the application of large system engineering processes and familiarity with computer aided tools for system engineering, requirements analysis, decomposition, and requirements traceability. The SEII shall have detailed understanding of information security into systems operation and has the ability integrate evolving security requirements into systems. The SEII shall have expertise in engineering secure networks. The SEII shall be thoroughly versed in the systems level design and development of large software systems. The SEII has expertise with Common Criteria Language, and FIPS-140.

**Minimum Education:** A Bachelor's degree in Engineering, Computer Science, information Technology or other related field, and six (6) years experience in a related field. Eight (8) years directed and subject appropriate experience may substitute for a degree.

### **SECURITY ENGINEER III**

**Minimum/General Experience:** Ten (10) years experience of technical and engineer work in the computer network and information security fields, security engineering hardware, software or combination of both, with a background in secure data communications, to include Common Criteria evaluation and/or FIPS 140 testing experience. Experience in information systems engineering, security assessments (Vulnerability analysis, connection approvals, or security test and evaluations) and with a demonstration of increasing responsibilities. Five (5) of the Ten (10) years experience shall be in a lead technical task/project leadership position.

**Functional Responsibility:** A Security Engineer (III) (SEIII) has a high level knowledge and understanding of network protocols. The SEIII has expert knowledge of Common Criteria Language, and FIPS 140 standards. The SEIII has the job skills to work on various network types of equipment and related devices from a security protection emphasis to include installing; troubleshooting; modifying; testing. SEIII can independently build test network or system prototypes, performing equipment set-up, testing, and participating in test report writing. The SEIII has the ability to develop attack programs to verify security assurance and weakness capability. Gathers and organizes technical information about an organization's missions, goals, and requirements, existing security products, and ongoing programs in the IA arena. Performs a variety of routine project tasks applied to specialized technology problems. Tasks involve integration of electronic processes or methodologies to resolve total system problems, or technology problems as they relate to IA requirements. Conducts security assessments and security consulting services. Analyzes information security requirements. Performs certification for C&A processes for the accreditations of systems. The SEIII performs vulnerability analysis and assessment using either government or commercial off the shelf technologies.

**Minimum Education:** A Bachelor's degree in Engineering, Computer Science, information Technology or other related field, and eight (8) years experience in a related field. Ten (10) years directed and subject appropriate experience may substitute for a degree.

### **SECURITY ANALYST I**

**Minimum/General Experience:** Three years experience in general security technology fields such as, experience in one or all the following, Common Criteria evaluation, FIPS 140 testing and/or Certification and Accreditation experience, business continuity planning, risk management, qualitative risk assessments, intrusion detection, authentication systems, or security engineering.

**Functional Responsibility:** A Security Analyst I (SAI) shall be able to perform the following tasks, with minimal direction: developing and preparing technical documents; writing technical papers, interaction with customers to gather design and development inter-networking concepts, theories, and information; perform technical engineer duties to include but not be limited to installation of inter-networking equipments, setup test equipments, execute tests according to written procedures, and document test results in a meaningful format for future integration into test result reports. The SA I shall understand inter-networking, networks, and computer concepts, and have technical expertise in engineering secure network. The SA I shall possess personnel computer skills at a level where they can capture preliminary and detailed information to complete follow-on tasks. The SA I shall have detailed understanding of the Common Criteria Scheme, Security Target development and participate in formal analysis and testing under the Common Criteria Scheme for product evaluations. A SA I shall have the knowledge and job skills to work directly with senior level personnel to accomplish goals and tasks. A SA I shall be required to initiate tasks, and complete them under the direction of a Program Manager. Performs certification for C&A processes for the accreditations of systems. The SEIII performs vulnerability analysis and assessment using either government or commercial off the shelf technologies.

**Minimum Education:** A Bachelor's degree in Engineering, Computer Science, information Technology or other related field, and three (3) years experience in a related field. Six (6) years directed and subject appropriate experience may substitute for a degree.

## **SECURITY ANALYST II**

**Minimum/General Experience:** Five (5) years experience in general security technology fields such as, experience in one or all the following, Common Criteria evaluation, FIPS 140 testing and/or Certification and Accreditation experience, business continuity planning, risk management, qualitative risk assessments, intrusion detection, authentication systems, or security engineering.

**Functional Responsibility:** A Security Analyst II (SA-II) independently perform the following tasks: developing and preparing technical documents; writing technical papers, interaction with customers to gather design and development inter-networking concepts, theories, and information; perform technical engineer duties to include but not be limited to installation of inter-networking equipments, setup test equipments, execute tests according to written procedures, and document test results in a meaningful format for future integration into test result reports. A SA-II understands, networks, and computer concepts, and has personnel computer skills at a level where he/she can independently capture preliminary and detailed information to complete follow-on task. The SA II shall have expertise knowledge of the Common Criteria Scheme, Security Target development, and Protection Profile development. A SA II shall have the knowledge and job skills to work directly with senior level personnel to accomplish goals and tasks. A SA II shall be required to initiate tasks, and complete them under the direction of a Program Manager. Performs certification for C&A processes for the accreditations of systems. The SEIII performs vulnerability analysis and assessment using either government or commercial off the shelf technologies.

**Minimum Education:** A Bachelor's degree in Engineering, Computer Science, information Technology or other related field, and five (5) years experience in a related field. Eight (8) years directed and subject appropriate experience may substitute for a degree.

## **SECURITY ANALYST III**

**Minimum/General Experience:** Eight (8) years experience in general security technology fields such as, experience in one or all the following, Common Criteria evaluation, FIPS 140 testing and/or Certification and Accreditation experience, business continuity planning, risk management, qualitative risk assessments, intrusion detection, authentication systems, or security engineering.

**Functional Responsibility:** The Security Analyst III (SA III) works on complex application problems involving all phases of systems analysis to provide IA solutions. The SA III provides technical support for testing and integration tasks, including the review of work products for correctness, adherence to the design concept and to user standards. The SA III has expert knowledge of IA products and IA-enabling products such as PKI, VPN, Firewalls, Intrusion Detection Systems, etc. Reviews and recommends IA solutions to customer problems based on an understanding of how products and services interrelate and support the IA mission and the viewpoints of the consumers of those products and services.. The SA III shall have detailed understanding of the Common Criteria Scheme, Security Target development, Protection Profile development. A Security Analyst shall be required to initiate tasks, and complete them independently. Performs certification for C&A processes for the accreditations of systems. The SEIII performs vulnerability analysis and assessment using either government or commercial off the shelf technologies.

**Minimum Education:** A Master's degree and eight (8) years additional experience or a Bachelor's degree in Computer Science, Information Science or related field and ten (10) years additional directed and subject appropriate experience may substitute for a Master's.

## **SYSTEMS ADMINISTRATOR**

**Minimum/General Experience:** Three (3) to five (5) years of experience in system administration, design, development, and performance evaluation of communications and information systems an equipment.

**Functional Responsibility:** Oversees and manages day to day configuration and operation of Information Systems. Optimize system operation and resource utilization, and performs system capacity planning/analysis while maintaining the security posture. Provides assistance to users in accessing and using support systems. Modifies non-routine system hardware and software as required to ensure system availability, security, and functionality. Responsible for the daily operational availability of hardware and software systems required to support system operations. Conducts scheduled testing and review of hardware and software to ensure potential problems are identified at the earliest point possible. Ensures documentation is prepared for all hardware and software adjustments and modifications. Ensures adjustments and repairs on hardware and software problems are accomplished as the need is detected. Ensures systems backup is scheduled and accomplished for major systems. May supervise the hardware and software maintenance personnel and activities.

**Minimum Education:** A Bachelor's degree Computer Science, Information Science, or Business. A combination of education, training, and ten (10) years of experience in systems administration, design, development, security, and performance evaluation may substitute for a degree.

## **QUALITY SYSTEM MANAGER (QSM)**

**Minimum/General Experience:** Five or more years experience required, preferably in an IT security environment. The QSM shall be familiar with ISO 9001, and the National Voluntary Laboratory Accreditation Program sponsored by NIST. He/she will support all Quality System and Procedures manuals. He/she must have experience with document editing, document structure and logic flow, and writing for nontechnical audiences. The knowledge and ability to interpret engineering drawings, operational procedures, and to absorb and synthesize large quantities of computer related information is required. Experience with Microsoft Word Microsoft Projects and Excel is required. CMMI Level 2 experience preferred.

**Functional Responsibility:** The QSM will support the implementation of quality processes and procedures. The QSM will work to ensure that the Quality System is consistently employed in the day-to-day operations. The QSM will monitor proprietary information and document control and conduct inventories as required. He/she will perform audits to ensure a current state of the following Quality records/items: Evaluation Records, Document Control Records, Destruction Records, Reproduction Procedures and Records, and Maintenance Records. The QSM is responsible for the accreditation of the Common Criteria Lab and the FIPS 140 lab under the NVLAP guidelines. The QSM is also responsible for the ISO 9000 recertification.

As secondary functions, the QSM will perform technical writing and reviews in support of the Certification and Accreditation contracts. The QSM will be able to produce and/or edit technical reports. He/she must be able to consolidate technical input and analysis and output a logical, understandable report. He/she must be able to format and produce clean publishable documents.

**Minimum Education:** BS degree in English, IT, Computer Science or related field, or 5 years subject appropriate experience may substitute for degree

## **TECHNICAL WRITER**

**Minimum/General Experience:** Three (3) to five (5) years of technical writing experience including working with computers and word processing software and general experience writing and editing publications including layout and design techniques (handbooks, manuals, or articles) for audiences with varied levels of knowledge and interest in the subjects covered. IT security environment background preferred. Must have some knowledge of National Institute of Standards Special Publications (NIST SP) 800-37, 800-53, 800-18, 800-30, 800-34, 800-53, 800-53a, FIPS 199 and 200. Knowledge of Risk Assessments, System Security Plans, Security Tests and Evaluations, Plans of Action and Milestones, and Certification Statements desirable.

**Functional Responsibility:** Writes and edits a variety of technical documents for audiences with varied levels of knowledge and interest on the subjects covered. Write or edit technical documents describing the features, functions, installation, software, and hardware of computer systems. Work with subject specialists to write and edit evaluation papers, system proposals, internal software and system documentation, user manuals, and training course materials for computer systems. Write or edit a variety of management reports (progress reports, status briefings) administrative papers, and support for the COACT bid and proposal team.

**Minimum Education:** BS/BA degree including 15 semester hours of course work in English, writing, communications, or related field. Ten years work experience can be substituted for education.

## **ADMINISTRATIVE ASSISTANT**

**Minimum/General Experience:** Five (5) years experience in filing techniques, general clerical field activities, and demonstrated experience in use of information systems and word processing software applications.

**Functional Responsibility:** This professional level includes clerical personnel, administrative services personnel, illustrator/graphics personnel, technical editors, and technical publications personnel. Performs administrative duties in a staff activity. Performs specialized assignments relating to typing, word processing, graphics illustration using computers with very little direction. Performs a variety of support services such as operation of reproduction equipment to produce large volumes of documents, courier service and mail service, etc.

**Minimum Education:** A Bachelor's Degree in Business, Information Systems, or other business/science related field.

**USA COMMITMENT TO PROMOTE  
SMALL BUSINESS PARTICIPATION  
PROCUREMENT PROGRAMS**

PREAMBLE

(Name of Company) provides commercial products and services to ordering activities. We are committed to promoting participation of small, small disadvantaged and women-owned small businesses in our contracts. We pledge to provide opportunities to the small business community through reselling opportunities, mentor-protégé programs, joint ventures, teaming arrangements, and subcontracting.

COMMITMENT

To actively seek and partner with small businesses.

To identify, qualify, mentor and develop small, small disadvantaged and women-owned small businesses by purchasing from these businesses whenever practical.

To develop and promote company policy initiatives that demonstrate our support for awarding contracts and subcontracts to small business concerns.

To undertake significant efforts to determine the potential of small, small disadvantaged and women-owned small business to supply products and services to our company.

To insure procurement opportunities are designed to permit the maximum possible participation of small, small disadvantaged, and women-owned small businesses.

To attend business opportunity workshops, minority business enterprise seminars, trade fairs, procurement conferences, etc., to identify and increase small businesses with whom to partner.

To publicize in our marketing publications our interest in meeting small businesses that may be interested in subcontracting opportunities.

We signify our commitment to work in partnership with small, small disadvantaged and women-owned small businesses to promote and increase their participation in ordering activity contracts. To accelerate potential opportunities please contact (Insert Company Point of contact, phone number, e-mail address, fax number).

BPA NUMBER \_\_\_\_\_

(CUSTOMER NAME)  
BLANKET PURCHASE AGREEMENT

Pursuant to GSA Federal Supply Schedule Contract Number(s) \_\_\_\_\_, Blanket Purchase Agreements, the Contractor agrees to the following terms of a Blanket Purchase Agreement (BPA) EXCLUSIVELY WITH (ordering activity):

- (1) The following contract items can be ordered under this BPA. All orders placed against this BPA are subject to the terms and conditions of the contract, except as noted below:

MODEL NUMBER/PART NUMBER	*SPECIAL BPA DISCOUNT/PRICE
_____	_____
_____	_____
_____	_____

- (2) Delivery:

DESTINATION	DELIVERY SCHEDULES / DATES
_____	_____
_____	_____
_____	_____

- (3) The ordering activity estimates, but does not guarantee, that the volume of purchases through this agreement will be \_\_\_\_\_.

- (4) This BPA does not obligate any funds.

- (5) This BPA expires on \_\_\_\_\_ or at the end of the contract period, whichever is earlier.

- (6) The following office(s) is hereby authorized to place orders under this BPA:

OFFICE	POINT OF CONTACT
_____	_____
_____	_____
_____	_____

- (7) Orders will be placed against this BPA via Electronic Data Interchange (EDI), FAX, or paper.

- (8) Unless otherwise agreed to, all deliveries under this BPA must be accompanied by delivery tickets or sales slips that must contain the following information as a minimum:

- (a) Name of Contractor;
- (b) Contract Number;
- (c) BPA Number;
- (d) Model Number or National Stock Number (NSN);
- (e) Purchase Order Number;
- (f) Date of Purchase;

- (g) Quantity, Unit Price, and Extension of Each Item (unit prices and extensions need not be shown when incompatible with the use of automated systems; provided, that the invoice is itemized to show the information); and
- (h) Date of Shipment.
- (9) The requirements of a proper invoice are specified in the Federal Supply Schedule contract. Invoices will be submitted to the address specified within the purchase order transmission issued against this BPA.
- (10) The terms and conditions included in this BPA apply to all purchases made pursuant to it. In the event of an inconsistency between the provisions of this BPA and the Contractor's invoice, the provisions of this BPA will take precedence.

\*\*\*\*\*

BASIC GUIDELINES FOR USING  
“CONTRACTOR TEAM ARRANGEMENTS”

Federal Supply Schedule Contractors may use “Contractor Team Arrangements” (see FAR 9.6) to provide solutions when responding to a ordering activity requirements.

These Team Arrangements can be included under a Blanket Purchase Agreement (BPA). BPAs are permitted under all Federal Supply Schedule contracts.

Orders under a Team Arrangement are subject to terms and conditions or the Federal Supply Schedule Contract.

Participation in a Team Arrangement is limited to Federal Supply Schedule Contractors.

Customers should refer to FAR 9.6 for specific details on Team Arrangements.

Here is a general outline on how it works:

- The customer identifies their requirements.
- Federal Supply Schedule Contractors may individually meet the customers needs, or -
- Federal Supply Schedule Contractors may individually submit a Schedules “Team Solution” to meet the customer’s requirement.
- Customers make a best value selection.
